

## BACK TO THE U.S. PRISONS.

- The United States Prison System is the largest in the world.
- We all know at least one person if not a friend that is or has been incarcerated.
- In some cases, as in a "mass murderer", perhaps life imprisonment is the only "sane" way to "help" the individual.
- In Arizona, Prison visitors must go through background checks. Outside of causing additional money and time to be spent background checks needing "up to 60 days" seem unnecessary in light of New York's prison population where such checks are done through identification procedures at the prison location at the time of a visit - no further background paperwork is needed!!!!
- **ARIZONA can do this!! Stop making the visitor a criminal.**
- **Start making the prison system more humane!**
- **Prohibit private company ownership of prisons.**
- **Incorporate a system close to Germany's present prison system.**
- **Let the Prison systems incorporate the need to rehabilitate**
- **Take responsibility for prisoners being there.**
- **Society must step up - take responsibility for the "have nots" and those who are "bad dudes".**
- **Substituting incarceration for the psychiatric institutions of last century is not a humane change!**

The first suggestion given by a lifetime friend is not used widely in United States' prisons. Where a misdemeanor or even a non-violent felony offense requires "prison time", let us use the AmeriCorps, Peace Corps and military as an alternative option. If there is a breach under that system, only then shall he or she serve a prison sentence. **Laws requiring "prison time" by our judicial system must be radically changed. It is the 21st Century. It is time to give up incarceration as a modern day slavery. Certainly "for profit prisons" is not morally defensible!**

Our First Amendment right to inform our fellow citizens of the state of our nation - what the United States is doing in our name should never be questioned. BUT IT IS when Julian Assange, Daniel Hale, and Edward Snowden are criminalized!

Letting people "get away" with exposing information isn't the problem.

Our Country has war tools many times over the next ten largest military nations of our world combined. We are using COUNTRIES as proxies for maintaining the United States way of life in Ukraine - our Sovereignty:

- Killing civilians is acceptable as "collateral damage".
- The "Doomsday Clock" is now at 90 seconds before midnight.
- **OUR GOVERNMENT IS DOING THINGS WE THE PEOPLE SIMPLY DO NOT CONDONE!**  
Perpetual War - Why?

- The Nicaraguan U.S. government backed push to depose the elected Nicolas Maduro with a U.S. government appointed / supported Juan Guido
- Israel / Palestine Apartheid
- Monroe Doctrine used to subjugate all Countries South of the U.S. Border!
- Refugees seeking Asylum due to paramilitary forces trained in the U.S. by S.O.A. & WHINSEC
- U.S. Big Business controlling the entire planet
