

When is another country's sovereignty subservient to U.S. Sovereignty?

Is our country's sovereignty considered without regard for ANY other country's sovereignty?

The "Doctrine of Discovery" from the Pope issued in the late 1400's still has open wounds within the indigenous communities of our country. The slave trade has discriminating tentacles into today's society hindering our progress as well. **Fear of the people formerly oppressed having a voice, an equity - a fairness with justice that everyone can have - scares many people. "Basically, everyone does the best they can with the materials they have when & where they have them" describes each of us, I believe. If someone does a dis-service to someone - it is out of lack of materials, understanding or the time (manner of life) in their lives. Understanding this can help us get along with every other person.**

The carpetbaggers of the late 19th century are no better than corporate greed towards large scale farming and mineral resources in South America, Africa . . . anywhere in the world! The Monroe Doctrine is used to exploit the resources found there and keep other overseas nations from getting involved - AT THE EXPENSE OF THE INDIGINOUS AND DISENFRANCHISED PEOPLE (LARGELY PEOPLE OF COLOR) OF THOSE COUNTRIES? When "School of Americas" training by the United States military (and contractors) is used to put trained "police" in sister countries (AND IN THE U.S. WITH "COP CITY") to control the citizenry - who is suffering? We must not deny people immigrating into the United States. The United States policies to a great extent, HAVE CAUSED PEOPLE TO IMMIGRATE? !
